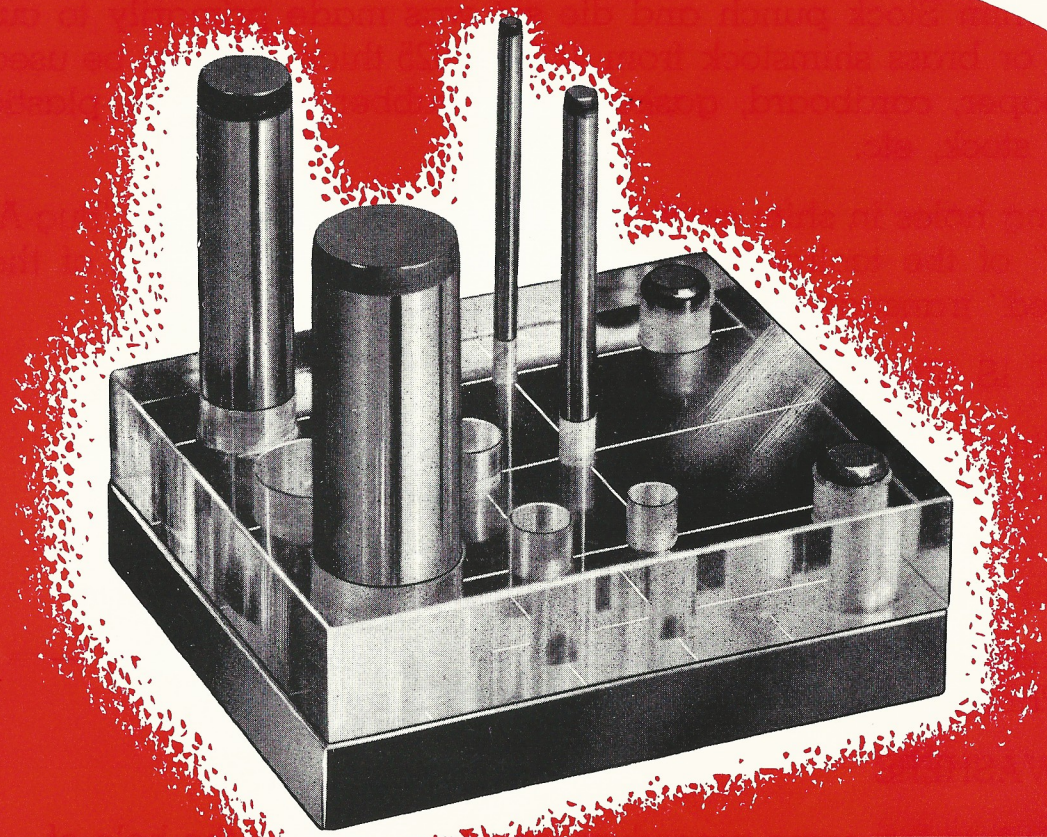
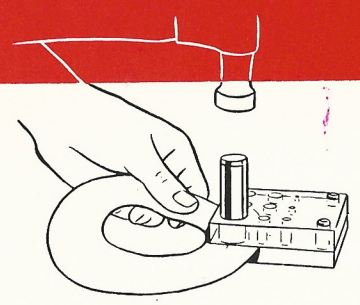
ALLIED TOOL AND DIE COMPANY

Shim Stock PUNCH





The New Member in the Punch Family!

Here is a new precision shim stock punch that cuts overhead costs as rapidly as it punches clean, accurate holes. Used by the most advanced engineer as well as shop mechanics, it does the job swiftly, easily and with precision. The clear plastic top enables the operator to accurately align the centerlines over the material to be punched. Overall size of 1 1/4" x 3" x 3 1/2", it provides for the following standard size holes: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8", 3/4".

NOTE:— Special sizes built to your specifications.
