Equipment List

COMPUTER CONTROLLED MACHINING CENTERS

(3) Haas VF4 Vertical CNC Mills

Two of these machines are three axis numerically controlled, precision milling, drilling, tapping machining centers. They are equipped with a 24-station tool changer all computer controlled. Two of the Haas machines were put into service in December, 2015. The third has 4th axis capability and was put into service July 2019.

Axis travel X-50", Y-20", Z-24"

(3) Supermax CNC (Max 3 Rebel)

Vertical machining centers equipped with tool changer and Mitsubishi 520A Control, Fanuc compatible program format and a SMW 360,000 position rotary index table with 4th axis capabilities.

Axis travel X-40", Y-17.3", Z-24.8"
